

SAYUN SUKDUANG

SENIOR VICE PRESIDENT – POWER

Professional Experience

Sayun Sukduang was named Senior Vice President of Power at Williams in June 2026.

Sukduang brings more than 25 years of experience across the power and energy sectors, with depth in both thermal and renewable power generation. His background covers progressing roles in operations, maintenance, project engineering, energy management, commercial, and broader business leadership.

Prior to joining Williams, Sukduang served as SVP and Head of U.S. Asset Management at Axiom Infrastructure, overseeing a diverse power business portfolio that included community solar and utility-scale assets. Before that, Sukduang held senior leadership roles at ENGIE North America and ENGIE Resources.

Prior to joining ENGIE, Sukduang worked for Florida Power & Light's regulated energy business.

Education

Sukduang holds a degree in engineering from the United States Merchant Marine Academy and a Master of Business Administration from Duke University's Fuqua School of Business.
