Williams® WE MAKE CLEAN ENERGY HAPPEN®

A Leader in Natural Gas Infrastructure

Williams is a **100+** year-old leading energy infrastructure company that gathers, processes, stores and transports natural gas to over **800 customers**. Our operations are concentrated in the Pacific Northwest, Rocky Mountains, Gulf Coast and Eastern Seaboard. Headquartered in Tulsa, Oklahoma with over **5,700 employees**, Williams is a **Fortune 500** company with assets spanning the full natural gas value chain.

Connecting the best supplies with growing demand for clean energy

~1/3
of the natural gas in the U.S.

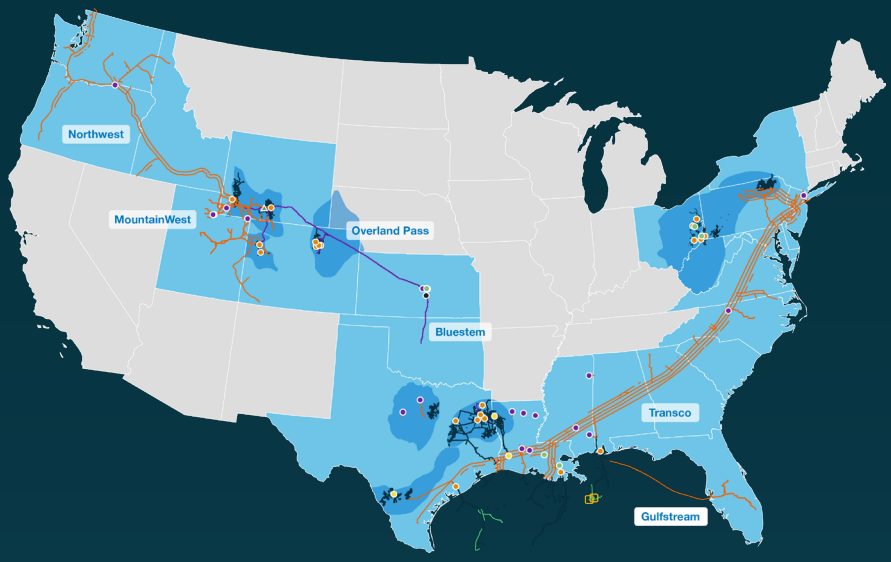

> 32,000 miles
of pipeline in 24 states

in 12 key supply areas
benefiting from geographic diversity and fee-based earnings

29.6 Bcf/d
of gas gathering capacity

8.3 Bcf/d
of processing capacity

417 Bcf
of gas storage capacity

Core business segments

Transmission, Power & Gulf
U.S. interstate natural gas pipelines, power generation, natural gas storage, and Deepwater Gulf natural gas and crude oil services

Northeast G&P
Natural gas gathering, processing (G&P) and fractionation in the prolific Marcellus and Utica Shales

West
Diversified natural gas G&P business serving Barnett, Eagle Ford, Haynesville, Mid-Continent, Permian and the DJ and other Rockies supply areas

Gas & NGL Marketing Services
Gas and NGL marketing services for end-users, customers, third-party NGL producers and Williams' equity production

Williams®

WE MAKE CLEAN ENERGY HAPPEN®

Committed to a Clean Energy Future

2025 GOAL

5% reduction
in methane intesity from 2024 for the 2025 AIP[1]

NEAR-TERM GOAL

Reach 0.0375%
in Scope 1 methane intensity by 2028[2]

NEAR-TERM GOAL

80% reduction
in carbon intensity from 2018 levels by 2028

NEAR-TERM GOAL

Achieve net zero
ambition by 2050 utilizing a combination of immediate & long-term solutions

Sustainability Rankings

S&P Global
Received the top score in the 2025 Corporate Sustainability Assessment (CSA) in the North America Oil & Gas Storage & Transportation industry

CDP
Maintained an 'A-' score on the 2025 CDP Climate Change Questionnaire

ISS
Achieved 'Prime' status and 'B-' rating in the ISS Corporate Rating Report

MSCI
Maintained AA rating, illustrating ongoing ESG leadership in the Oil & Gas Refining, Marketing, Transportation & Storage industry

Strengthening Our Communities
