1 Identification

Product identifier

Trade name: Butane, Normal

Other means of identification: Butane, n-Butane, Butyl Hydride

Recommended use and restriction on use

Recommended use: Fuel

Restrictions on use: No relevant information available.

Details of the supplier of the Safety Data Sheet

Manufacturer/Supplier:
Williams, Inc.
One Williams Center
Tulsa, OK 74172
USA
855-945-5762 (Toll-Free)
ehs@williams.com

Emergency telephone number:
CHEMTREC
1-800-424-9300 (US/Canada)
+01 703-527-3887 (International)

2 Hazard(s) identification

Classification of the substance or mixture

Flam. Gas 1 H220 Extremely flammable gas.
Press. Gas H280 Contains gas under pressure; may explode if heated.
Simple Asphyxiant May displace oxygen and cause rapid suffocation.

Label elements

GHS label elements
The product is classified and labeled according to the Globally Harmonized System (GHS).

Hazard pictograms:

GHS02 GHS04

Signal word: Danger

Hazard statements:
H220 Extremely flammable gas.
H280 Contains gas under pressure; may explode if heated.
May displace oxygen and cause rapid suffocation.

Precautionary statements:
P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P377 Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
P381 Eliminate all ignition sources if safe to do so.
P410+P403 Protect from sunlight. Store in a well-ventilated place.

Other hazards There are no other hazards not otherwise classified that have been identified.

(Cont'd. on page 2)
Trade name: Butane, Normal

(Cont’d. of page 1)

3 Composition/information on ingredients

Chemical characterization: Mixtures

<table>
<thead>

<td>Flam. Gas 1, H220 Press. Gas, H280 Simple Asphyxiat</td>
<td>&lt;4%</td>
</tr>
</tbody>
</table>

Additional information:
For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

4 First-aid measures

Description of first aid measures
After inhalation:
Supply fresh air.
Provide oxygen treatment if affected person has difficulty breathing.
If experiencing respiratory symptoms: Call a poison center/doctor.
After skin contact:
In cases of frostbite from liquefied gas or from high-pressure systems, rinse with plenty of water. Do not remove clothing.
After eye contact:
Remove contact lenses if worn.
Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
After swallowing: Unlikely route of exposure.
Most important symptoms and effects, both acute and delayed:
Dizziness
Coughing
Frostbite from liquefied gas or high-pressure systems.
Disorientation
Danger: May displace oxygen and cause rapid suffocation.
Indication of any immediate medical attention and special treatment needed:
If necessary oxygen respiration treatment.

5 Fire-fighting measures

Extinguishing media
Suitable extinguishing agents:
Foam
Water fog / haze
Gaseous extinguishing agents
Carbon dioxide
For safety reasons unsuitable extinguishing agents: Water stream.
Special hazards arising from the substance or mixture

(Cont’d. on page 3)
**Trade name: Butane, Normal**

Danger of receptacles bursting because of high vapor pressure if heated.
Extremely flammable gas.

**Advice for firefighters**

**Protective equipment:**
Wear self-contained respiratory protective device.
Wear fully protective suit.

**Additional information:**
Eliminate all ignition sources if safe to do so.
In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.
Leaking gas fire: Do not extinguish, unless leak can be stopped safely.

---

**6 Accidental release measures**

**Personal precautions, protective equipment and emergency procedures**
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation.
Keep away from ignition sources.
Take precautionary measures against static discharge.
Use only non-sparking tools.
Protect from heat.
For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

**Environmental precautions** No special measures required.

**Methods and material for containment and cleaning up** Allow to evaporate.

**Reference to other sections**
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

---

**7 Handling and storage**

**Handling**

**Precautions for safe handling:** Use enclosed means of conveyance.

**Information about protection against explosions and fires:**
Keep ignition sources away - Do not smoke.
Protect against electrostatic charges.
Ground/bond container and receiving equipment.
Emergency cooling must be available in case of nearby fire.
Flammable gas-air mixtures may be formed in empty containers/receptacles.

**Conditions for safe storage, including any incompatibilities**

**Requirements to be met by storerooms and receptacles:**
Avoid storage near extreme heat, ignition sources or open flame.

**Information about storage in one common storage facility:** Store away from oxidizing agents.

**Further information about storage conditions:**
Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.

**Specific end use(s)** No relevant information available.
8 Exposure controls/personal protection

Control parameters

Exposure controls

General protective and hygienic measures:
The usual precautionary measures for handling chemicals should be followed.
Keep away from foodstuffs, beverages and feed.
Wash hands before breaks and at the end of work.

Engineering controls: Provide adequate ventilation.

Breathing equipment:
Not required under normal conditions of use.

Self-contained respiratory protective device should be used in case of large spills or leaks.

Protection of hands:
Wear gloves for protection against thermal and mechanical hazards according to OSHA and NIOSH rules.

Eye protection:
Safety glasses

Follow relevant national guidelines concerning the use of protective eyewear.

Body protection: Wear appropriate protective clothing.

Limitation and supervision of exposure into the environment
No relevant information available.

Risk management measures No relevant information available.
9 Physical and chemical properties

Information on basic physical and chemical properties

Appearance:
- Form: Compressed liquefied gas
- Color: Colorless
- Odor: Characteristic
- Odor threshold: Not determined.

pH-value: Not determined.
Melting point/Melting range: Not determined.
Boiling point/Boiling range: -1 °C (30.2 °F)
Flash point: -73 °C (-99.4 °F)
Flammability (solid, gaseous): Extremely flammable gas.
Auto-ignition temperature: 399 °C (750.2 °F)
Decomposition temperature: Not determined.
Danger of explosion: Product is not explosive. However, formation of explosive air/vapor mixtures are possible.

Explosion limits
- Lower: 1.9 Vol %
- Upper: 8.5 Vol %
Oxidizing properties: Not determined.

Vapor pressure at 37.8 °C (100 °F): 2670 mmHg (52 psi)

Density:
- Relative density at 15.6 °C (60.1 °F): 2 (air = 1)
- Vapor density: Not determined.
- Evaporation rate: Not applicable.

Solubility in / Miscibility with
- Water: Not miscible or difficult to mix.

Partition coefficient (n-octanol/water): Not determined.

Viscosity
- Dynamic: Not determined.
- Kinematic: Not determined.

Other information: No relevant information available.

10 Stability and reactivity

Reactivity: No data available for self-reactivity.
Chemical stability: Stable under normal temperatures and pressures.
Thermal decomposition / conditions to be avoided:
- Danger of receptacles bursting because of high vapor pressure if heated.
Possibility of hazardous reactions
- Extremely flammable gas.
Trade name: Butane, Normal

Reacts with halogenated compounds.
Develops readily flammable gases / fumes.
Reacts with oxidizing agents.
Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomized.
Hazardous gases may be released if heated above the decomposition point.

Conditions to avoid
Keep ignition sources away - Do not smoke.
Store away from oxidizing agents.

Incompatible materials
Oxidizers
Halogenated compounds.

Hazardous decomposition products
Under fire conditions only:
Carbon monoxide and carbon dioxide

11 Toxicological information

Information on toxicological effects
Acute toxicity: Based on available data, the classification criteria are not met.
LD/LC50 values that are relevant for classification: None.
Primary irritant effect:
On the skin: Based on available data, the classification criteria are not met.
On the eye: Based on available data, the classification criteria are not met.
Sensitization: Based on available data, the classification criteria are not met.

IARC (International Agency for Research on Cancer):
None of the ingredients are listed.

NTP (National Toxicology Program):
None of the ingredients are listed.

OSHA-Ca (Occupational Safety & Health Administration):
None of the ingredients are listed.

Probable route(s) of exposure:
Inhalation.
Eye contact.
Skin contact.

Acute effects (acute toxicity, irritation and corrosivity):
May displace oxygen and cause rapid suffocation.

Germ cell mutagenicity: Based on available data, the classification criteria are not met.
Carcinogenicity: Based on available data, the classification criteria are not met.
Reproductive toxicity: Based on available data, the classification criteria are not met.
STOT-single exposure: Based on available data, the classification criteria are not met.
STOT-repeated exposure: Based on available data, the classification criteria are not met.
Aspiration hazard: Based on available data, the classification criteria are not met.

12 Ecological information

Toxicity

(Cont’d. on page 7)
Trade name: Butane, Normal

Aquatic toxicity No relevant information available.
Persistence and degradability No relevant information available.
Bioaccumulative potential: No relevant information available.
Mobility in soil: No relevant information available.
Additional ecological information
General notes: Not known to be hazardous to water.
Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.
Other adverse effects No relevant information available.

13 Disposal considerations

Waste treatment methods
Recommendation:
Contact waste processors for recycling information.
The user of this material has the responsibility to dispose of unused material, residues and containers in
compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and
disposal for hazardous and nonhazardous wastes.

Uncleaned packagings
Recommendation: Disposal must be made according to official regulations.

### IMDG, IATA

**Class**: 2.1  
**Label**: 2.1

**Packing group**: This UN-number is not assigned a packing group.

**Environmental hazards**  
**Marine pollutant**: No

**Special precautions for user**  
**Danger code (Kepler)**: Not applicable.  
**EMS Number**: F-D-S-U

**Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**  
Not applicable.

### Transport/Additional information:

#### IATA

Cargo Aircraft Only.

### 15 Regulatory information

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

**United States (USA)**

**SARA**

**Section 302 (extremely hazardous substances):**
None of the ingredients are listed.

**Section 355 (extremely hazardous substances):**
None of the ingredients are listed.

**Section 313 (Specific toxic chemical listings):**
None of the ingredients are listed.

**TSCA (Toxic Substances Control Act)**
All ingredients are listed.

**Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130):**

## 16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

### Abbreviations and acronyms:

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road  
IMDG: International Maritime Code for Dangerous Goods  
DOT: US Department of Transportation  
IATA: International Air Transport Association  
CAS: Chemical Abstracts Service (division of the American Chemical Society)  
LC50: Lethal concentration, 50 percent  
LD50: Lethal dose, 50 percent  
PBT: Persistent, Bio-accumulative, Toxic  
PvPvB: very Persistent and very Bioaccumulative  
OSHA: Occupational Safety & Health Administration  
Flam. Gas 1: Flammable gases – Category 1  
Press. Gas: Gases under pressure – Compressed gas
