

Why We Include Pronouns?

Sharing pronouns makes spaces more inclusive of transgender, gender nonconforming and gender non-binary people. We believe that including pronouns is a step in respecting people's gender identity and creating a more welcoming space for people of all genders.

What If You Don't Want to Share Your Pronouns?

It's ok. Providing an opportunity for people to share their pronouns does not mean that everyone feels comfortable or needs to share their pronouns. There are many reasons people may choose not to share their pronouns. In these cases, it's best to refrain from using pronouns for that person and simply use their name.
