# VOICES OF SUPPORT

Southeast Supply Enhancement Project

**100+ legislators from North Carolina have shown support for the Southeast Supply Enhancement Project**

## Local Voices

“By expanding natural gas capacity, this project will help meet North Carolina’s growing energy needs while supporting job creation and long-term economic competitiveness.”

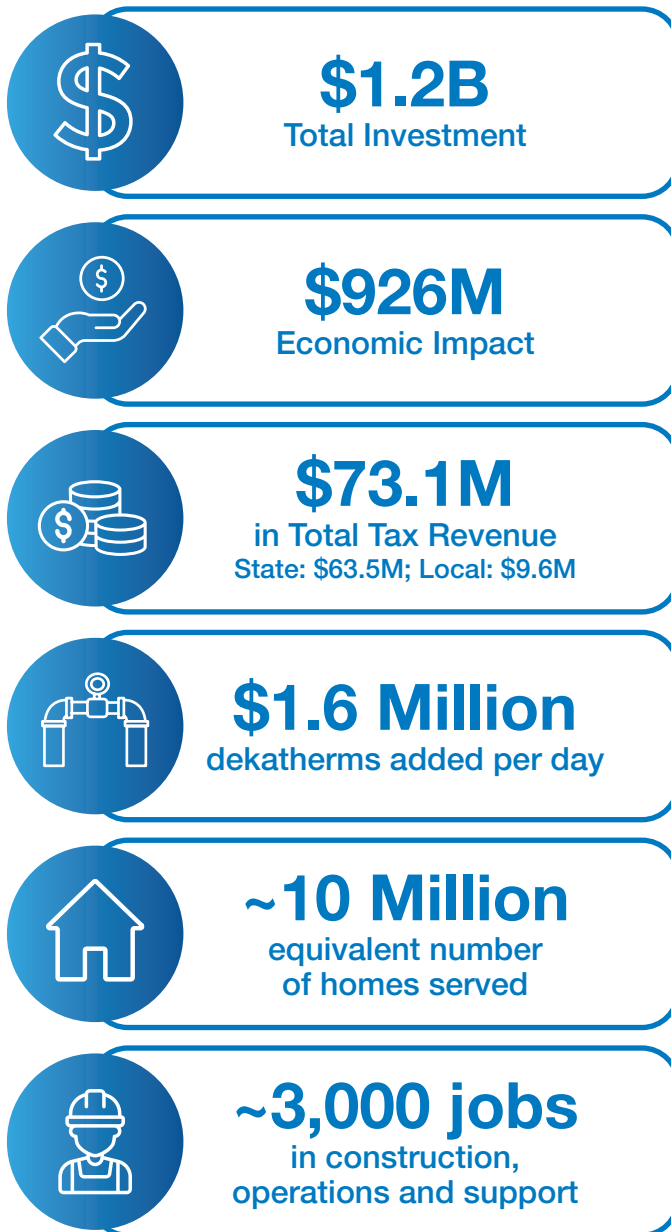

**North Carolina  
State Representatives  
and Senators**

“In addition to modernizing the existing natural gas system, the project is expected to generate over 3,000 direct and indirect jobs for North Carolinians.”

**North Carolina  
Congressional  
Delegation Letter**

# VOICES OF SUPPORT

Southeast Supply Enhancement Project

According to a recent survey

**80% of residents agree that it's important to invest in natural gas infrastructure to keep up with regional energy needs**

"The Board appreciates Williams providing safe, reliable clean energy to the region and North Carolina; and ... Williams has proven to be a responsible neighbor actively engaging with the County and its communities."

—Davidson County Resolution

"This project will support the state's agriculture sector by providing access to affordable and reliable natural gas, allowing farmers to focus on delivering goods for North Carolina consumers without the fear of supply shortages or increased costs."

—Keith Larick - North Carolina Farm Bureau Federation

"Williams has a strong record of commitment to environmental stewardship and safety, and I trust them to carry out this project."

—Jim Burnette - Eden Chamber of Commerce

## Environmental, Safety & Regulatory Excellence

- ➔ **Strong Air and Water Rankings:** North Carolina maintains strong air and water quality rankings according to U.S. News and World Report.
- ➔ **Pipeline Safety:** Pipelines are among the safest and most cost-effective ways to transport natural gas (PHMSA).
- ➔ **Site Preservation:** Co-locating along existing corridors minimizes impacts to land, wildlife, vegetation and water resources.
- ➔ **Continuous Oversight:** Operates to high safety and environmental standards within 24/7 monitoring and rigorous maintenance regulated by the Federal Energy Regulatory Commission (FERC).
- ➔ **Stakeholder Input:** Undergoing NEPA environmental review with public input opportunities.
- ➔ **Regulatory Review:** Reviewed by multiple state and federal agencies (erosion/stormwater/water quality).

dekatherms added per day

**~10 Million**  
equivalent number  
of homes served

**~3,000 jobs**  
in construction,  
operations and support

# VOICES OF SUPPORT

## Southeast Supply Enhancement Project

According to a recent survey

**80% of residents agree that it's important to invest in natural gas infrastructure to keep up with regional energy needs**

“Williams has been a trusted member of the County’s community for more than seventy (70) years ... The Board and County believe the SSE Project will provide reliable natural gas that will further enhance the attractiveness of the Southern Virginia Megasite at Berry Hill in the County, its most important ongoing economic development project/site.”

—**Pittsylvania County Resolution**

“Williams has proven to be a responsible neighbor actively engaging with the Town and the surrounding County; and the Council commends Williams for its willingness to listen, inform and engage on these issues in a transparent and open manner as demonstrated by its communication with nearby landowners.”

—**Town of Chatham Resolution**

“The Board of Directors fully support this project, which will enhance infrastructure, create new opportunities, and bolster the economic vitality essential for the continued growth and success of businesses in our region.”

—**Danville Pittsylvania Chamber of Commerce**
